Drama & Theatre

These are unprecedented or "strange times," and just as the world changes, theatre changes along with our learning process and reaction to the environment. Renowned American theatre academic, educator and acting coach, Viola Spolin is considered instrumental in the way directors look at theatre. She created techniques to help actors be focused in the present moment by using acting exercises that she later called "Theater Games." These focus on improvisation to react to what is going on in the immediate moment. This is a survey course for those with and without any stage experience during these stressful times, by using Spolin as a guiding force to activate the Creation, Development, and Rehearsal portion of our Anchor standards. The course is about process, not a final product, because art is ongoing. Instructor: Jonathon Saucedo

Times Offered:
11:00

National Parks & Hiking (5-8)

Hiking is more than just walking in the woods-it's about learning what route is best for you and what makes the park special. Did you know that some of the National parks are even underwater, or that some of them are homes to some pretty interesting wildlife? We'll learn about some of the National Parks in the US by talking to park rangers and virtually touring the parks. We'll also learn how to plan out a hiking trip, including choosing hiking routes, booking lodging, and packing supplies. Plus, we'll take a weekly trip to Thatcher Woods, weather permitting, to practice our hiking skills. Instructor: Cory Kadlec

Times Offered: 9:00

Roosevelt Readiness

Are you reading for Roosevelt? This is a class specifically designed to bridge the transition between elementary school and middle school! This class will focus on team-building skills, executive functioning help to help students prepare for middle school, and some logistical practice (tours, locker locks, etc). Join us and get to know your classmates, too! Instructors: Jesse and Benson
